

CLOSTRIDIUM DIFFICILE

CLINICAL RESEARCH STUDY

Our Research Center, with Crestovo (a pharmaceutical company), is seeking volunteers to participate in a clinical research study to prevent recurrent *Clostridium difficile* (*C. difficile*).

To find out more about this study and about how to get involved, please contact:

Twila Morrell, BSHA

Borland-Groover Clinic

904-483-5848

To be eligible for this study, you must be:

- 18 to 85 years of age
- Have had 2 previous episodes of *C. difficile*
- Must be experiencing a recurrence of *C. difficile* at this time
- Do not have a history or diagnosis of Irritable Bowel Disease (IBD) or Irritable Bowel Syndrome (IBS)

All Study visits will be performed and Investigational medication and procedures will be provided at no charge to you.

This trial is conducted under a US Food and Drug Administration Investigational New Drug Application.
