

## CURRENTLY ENROLLING STUDIES

For our patients, the Center for Clinical Research at WMed provides access to cutting-edge clinical trials in a variety of therapeutic areas. Deciding to participate in a clinical trial can be both intimidating and rewarding. Our experienced staff of health professionals are here to answer questions regarding participation in clinical trials, your rights as a patient, and the benefits and risks of participating in research as well as to guide patients through the process of contributing to the advancement of medicine. We conduct clinical trials in the following areas:

- Cardiology/Vascular Diseases
- Devices
- Endocrinology
- Family Medicine
- Gastroenterology
- Immunology
- Infections and Infectious Diseases
- Internal Medicine
- Neurology
- Nutrition and Weight Loss
- Obstetrics/Gynecology (Women's Health)
- Oncology
- Orthopedics/Orthopedic Surgery
- Pediatrics/Neonatology
- Psychiatry/Psychology
- Pulmonary/Respiratory Diseases
- Rheumatology
- Sleep
- Trauma (Emergency, Injury, Surgery)
- Urology
- Vaccines
