

CENTER FOR CLINICAL RESEARCH

## BLOOD AND URINE SAMPLES NEEDED

The Center for Clinical Research at Western Michigan University Homer Stryker M.D. School of Medicine is currently looking for **healthy volunteers** to supply **blood and urine samples**. Qualifying candidates will **receive compensation** for time and travel and may be eligible for **multiple donations**.

To be eligible, you must have **no significant health problems**. Blood and urine from healthy volunteers provides researchers with crucial data which may help further understanding of specific diseases. Research with healthy volunteers is designed to develop new knowledge, not to provide direct benefit to study participants.

Qualifying candidates:

- have no known, significant health problems
- are at least 18 years old and be able to sign informed consent prior to study

For more information or to enroll, contact our Clinical Study Recruiter at the email or number listed below:
